Subject: NDC partnership support facility

Dear Mr. Christophe de Gouvello,

The Brazilian Ministry of Environment manifests its endorsement to the activity “Support Facility in Brazil - NDC implementation”, in the context of the NDC Partnership Support Facility. This support consists not only on the commitment to provide logistical support (facilities, etc.) but also includes the in-kind contribution of US \$ 187,000.00 for technical and operational project support by the Ministry of Environment’s staff.

The work that the World Bank is proposing under the Support Facility will be complementary, and will enhance the work already being undertaken by the Brazilian Government through the Ministry of Environment to support the development of the National Strategy for the implementation of the Brazilian Nationally Determined Contribution (NDC).

The elaboration of the National Strategy for the implementation of NDC requires promoting and coordinating multiple dialogues between different levels of government, public agencies and stakeholders from the private sector and civil society.

In conclusion, the support of the World Bank will be fundamental and strategic to the success of this initiative, which is aligned with Brazil’s NDC according to the Paris Agreement.

Kind regards,

**EVERTON LUCERO**  
Secretary of Climate Change and Forests
